Research Papers

Consideration of CASE predictions of genotoxic carcinogenesis for omeprazole, methapyrilene and azathioprine
J. Ashby (UK) 1

Grain counting in the in vitro hepatocyte DNA-repair assay
G. Brambilla and A. Martelli (Italy) 9

Development of a flow-cytometric HLA-A locus mutation assay for human peripheral blood lymphocytes
J.-i. Kushiro, Y. Hirai, Y. Kusunoki, S. Kyoizumi, Y. Kodama, A. Wakisaka, A. Jeffreys, J.B. Cologne, K. Dohi, N. Nakamura and M. Akiyama (Japan, UK) 17

Time-saving in biological dosimetry by using the automatic metaphase finder Metafer2
J. Weber, W. Scheid and H. Traut (Germany) 31

Assessing overdispersion and dose–response in the male dominant lethal assay
A.-M.C. Lockhart, W.W. Piegorsch and J.B. Bishop (USA) 35

Testing by artificial intelligence: Computational alternatives to the determination of mutagenicity
G. Klopman and H.S. Rosenkranz (USA) 59

Significance testing in mutagen screening: the dependence of statistical power on the control sample size
H. Traut and W. Scheid (Germany) 73

Letter to the Editor

Comment on the US EPA recommendation for genotoxicity guidelines on chemicals
M. Ishidate Jr. (Japan) 79

Conference Report

First International Conference on Environmental Mutagens in Human Populations at Risk: Cairo, 1992
Preface
F.H. Sobels (The Netherlands) 81

Summary recommendations that have an impact on genetic toxicology research in developing countries
W. Anwar, W.W. Au, A. Massoud, J.M. Gentile and J. Ashby (Egypt, USA, UK) 83

Announcement 89

Research Papers

A sensitive *umu* test system for the detection of mutagenic nitroarenes in *Salmonella typhimurium* NM1011 having a high nitroreductase activity
Y. Oda, T. Shimada, M. Watanabe, M. Ishidate Jr. and T. Nohmi (Japan) 91

Description of a new amplifiable shuttle vector for mutagenesis studies in human cells: application to *N*-methyl-*N'*-nitro-*N*-nitrosoguanidine-induced mutation spectrum
A. Stary, C.F.M. Menck and A. Sarasin (France, Brazil) 101

Structural basis of the in vivo induction of micronuclei
W.-L. Yang, G. Klopman and H.S. Rosenkranz (USA) 111

Some factors affecting sister-chromatid differentiation (SCD) and sister-chromatid exchange (SCE) in *Hordeum vulgare*
Y. Hongyu and Z. Zili (China) 125

Overdispersion of aggregated genetic data
K.O. Bowman and M.A. Kastenbaum (USA) 133

Mutation of V79 cells by *N*-dialkylnitrosamines after activation by hamster pancreas duct cells
T. Lawson and C. Kolar (USA) 139

An evaluation of the *E. coli* K-12 *uvrB/recA* DNA repair host-mediated assay. I. In vitro sensitivity of the bacteria to 61 compounds
L. Hellmér and G. Bolcsfoldi (Sweden) 145

An evaluation of the *E. coli* K-12 *uvrB/recA* DNA repair host-mediated assay. II. In vivo results for 36 compounds tested in the mouse
L. Hellmér and G. Bolcsfoldi (Sweden) 161

Genotoxic potential of the organochlorine insecticide lindane (γ-BHC): an in vivo study in chicks
S.P. Bhunya and G.B. Jena (India) 175

Use of a newly developed tester strain *Salmonella typhimurium* NM2009 for the study of metabolic activation of carcinogenic aromatic amines by rat liver microsomal cytochrome P-450 enzymes
H. Yamazaki, Y. Oda and T. Shimada (Japan) 183

Letter to the Editor
A.T. Natarajan, E.W. Vogel and A.A. Van Zeeland (Netherlands) 193

Research Papers
Detection of somatic mutations in vivo in lung fibroblasts, I. Spontaneous frequencies in Chinese hamsters and F344 rats
J.A. Heddle, J.D. Gingerich, C. Urlando, M. Pagura, P. Shepson and M.A. Khan (Canada) 195

Mutagenicity testing of protein-containing and biological samples using the Ames/Salmonella plate incorporation test and the fluctuation test
L. Nylund and P. Einistö (Finland) 205

In vivo fate of MMS-induced DNA lesions that elicit SCE
P. Morales-Ramírez, R. Rodríguez-Reyes and T. Vallarino-Kelly (Mexico) 215

Evaluation of the micronucleus test using a Chinese hamster cell line as an alternative to the conventional in vitro chromosomal aberration test
A. Matsuoka, N. Yamazaki, T. Suzuki, M. Hayashi and T. Sofuni (Japan) 223

The mouse splenocyte assay, an in vivo/in vitro system for biological monitoring: studies with X-rays, fission neutrons and bleomycin
F. Darroudi, Z. Farooqi, D. Benova and A.T. Natarajan (Netherlands, Bulgaria) 237

Environmental Mutagen Society of Japan
Selected Abstracts of the 20th Annual Meeting
6–8 November 1991, Tokyo, Japan 249

Announcement 293

Erratum 295

Contents, Vol. 272 (1992) 297
